

MOVE access

**Give your customers access
to the MOVE charging network
and give yourself a competitive
advantage.**

MOVE Mobility AG – the operator of one of the best smart public charging networks in Switzerland – is on course for growth: In Switzerland, MOVE currently offers a vast number of its own charging options as well as access to thousands more. These are complemented by innumerable charging options across Europe – with more to come!

MOVE is now offering businesses the opportunity to benefit from this impetus and become a partner of the MOVE access network. Position yourself in this future-oriented market by providing your customers with their own MOVE key tags and/or cards, giving them the benefits of access to the public MOVE charging networks and associated partner networks throughout Switzerland and Europe. As well as this positioning potential, you and your customers can look forward to a variety of other advantages:

- No additional administrative burden for you – billing and customer management are carried out by MOVE.
- Enjoy one hundred percent costing certainty thanks to guaranteed prices at home and abroad.
- 100% coverage in Switzerland – with the MOVE card, you and the users of your fleet vehicles can access every public smart charging station in Switzerland, and many others in Europe.
- Postpaid solutions – only MOVE offers your customers billing and credit card debiting after the purchase of services, so there's no need to ensure the prepaid account is topped up.
- Top-of-the-line security and data handling (Swiss-made systems and data management).
- Your customers can also enjoy the numerous benefits offered by the MOVE charging network:
 - Access to all publicly accessible smart charging stations in Switzerland (MOVE, EVpass, Swiss-charge, Easyou, etc.) and over 35,000 in Europe.
 - Fixed prices in the MOVE network and on all other charging networks.
 - Compatible with every type of electric vehicle.
 - User-friendly and easy-to-operate system.
 - Professional 24/7 MOVE customer hotline.
- An online portal gives you full control:
 - Monitor charging processes in real time
 - Manage active cards
 - Data files simplify the billing of purchased services
- If you require additional charging at home or at work, the MOVE myNet solution can be combined seamlessly with MOVE access.

As a MOVE access partner, you also benefit from favourable terms:

- At MOVE charging stations, you receive a commission of 2% of turnover from your customers.
- You also receive an annual commission of CHF 10 for every one of your MOVE comfort customers.
- The one-time partnership fee is CHF 5,000 for the basic version; the recurring license fee is from CHF 3,000 per year (including the initial cost of 100 cards or key fobs).
- Enjoy a range of options when configuring your customer package, including free price-setting for your customers, billing either to customers or to you, integration into your billing infrastructure, etc.

Our business experts will be happy to provide you with specific information, billing details, as well as extra cards or key tags in a personal meeting. Please contact us any time on **026 322 34 01** (Stéphane Rosset, Partner Manager) or via email at sales@move.ch.

We look forward to hearing from you.
