

MOVE Immo

MOVE Mobility SA

MOVE Immo

As a property owner or manager, increase the attractiveness of your buildings with your own network of charging stations.

MOVE Immo is an innovative service designed to simplify the management and accessibility of charging stations for electric vehicles in building car parks. It provides a solution that meets all the needs of the owners/managers of properties and condominiums, enabling them to actively contribute to the transition towards more sustainable electromobility. The key features of this solution are as follows:

- **Automated payment processes**
- **Autonomous tenant management**
- **Centralised administration via our B2B portal**
- **Simple and transparent pricing**

MOVE Mobility AG – the operator of one of the best public smart networks of charging stations – now offers property owners and facility managers a solution that meets the needs of the growing number of electric vehicle drivers.

Services

Automated billing

Global monthly billing for users, including recurring fees for station leasing and charging costs.

Reimbursement in the form of credit notes made out to the company or the person responsible for paying for electricity (configurable for each station).

The charging prices can be personalised by the partner for each charging point.

Centralised management via our B2B portal

An overall view of the available stations, including energy consumption statistics.

Individual management of the different elements for each station, including the prices, additional access and the users benefiting from free charging.

Access to a complete charging history and the tenants associated with each station.

Simplified access

Tenants are managed autonomously by users on the MOVE app using the self-service option activated on every station without the need for any further administration.

Tenants can activate charging in various ways, e.g. using an RFID badge or the MOVE application (QR code). Access to charging stations can be restricted exclusively to tenants.

Assistance

A hotline and help service is available free of charge 24/7 to all charging station users.

Remote surveillance and maintenance of the stations provided by MOVE.

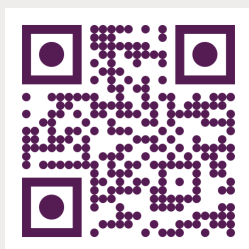

Price model

	One-time integration cost	Recurring costs
Costs for each charging point	CHF 49.-	CHF 8.-/month

One-time integration cost is billed per charge point to the station owner. Recurring costs per charge point are billed monthly to the user (tenant). Charging rates are transparently communicated to the user when the charging session is activated. No additional transaction fees or other charges are invoiced.

The prices shown in the table do include VAT

How can I integrate my charging infrastructure into MOVE Immo?

1. Scan the QR code using the camera on your mobile phone to access the form and create your B2B account.
2. Then use your login details to connect to the B2B portal (b2b.move.ch).
3. Add one or more stations to the MOVE network by opting for the MOVE Immo service using our station integration form.

Our sales experts are available to provide further information on request. You can contact us at any time by phone or via the e-mail address sales@move.ch.

We will then gladly get back to you
