

MOVE e-fleet

Make your fleet and that of your customers ready for electromobility and benefit from the numerous advantages offered by MOVE e-fleet.

Access to a suitable and convenient charging infrastructure for electric vehicles represents one of the biggest challenges for fleet managers. With MOVE e-fleet, drivers of electric vehicles can now enjoy access to every public charging station in Switzerland and the majority of stations in Europe. All of this under attractive terms, making it the first solution to offer cost certainty for electromobility. Thanks to the possibility of combining with MOVE myNet, charging at work or at home always fulfils the compliance requirements of larger corporations.

With MOVE e-fleet, you benefit from the following advantages:

- No additional administrative work for you – billing and customer management are carried out by MOVE
- 100% coverage – with the MOVE card, you and the users of your fleet vehicles can access every public smart charging station in Switzerland
- You receive a unique, VAT-compliant, invoice-based postpaid solution
- Top-of-the-line security and data handling (Swiss made systems and data management)
- Full oversight and control thanks to the online portal:
 - Track your charging in real time
 - Manage active cards
 - Store and manage your internal vehicle numbers
 - Download data files for straightforward onward billing of purchased services
- Your customers can also enjoy the numerous benefits offered by the MOVE charging network:
 - Access to all publicly accessible smart charging stations in Switzerland
 - Compatible with all electric vehicles
 - User-friendly and easy-to-operate system
 - Professional 24/7 MOVE customer hotline
- Full oversight and control thanks to the online portal:
 - Track your charging in real time
 - Manage active cards
 - Store and manage your internal vehicle numbers
 - Download data files for straightforward onward billing of purchased services
- If you require additional charging at home or at work, the MOVE myNet solutions can be combined seamlessly with MOVE e-fleet

As a MOVE e-fleet partner, you also benefit from favourable terms:

- You receive a commission of 2% of turnover from your customers at MOVE charging stations
- A one-time partnership fee from CHF 3000
- Enjoy a range of options when configuring your customer package: free price-setting for your customers, billing either to customers or to you, integration into your billing infrastructure, combination with other MOVE products such as MOVE myNet, etc.

Our business experts will be happy to provide you with further details on data and billing, additional cards or key fobs as well as any other questions or queries in a personal discussion. Please contact us any time on **058 510 49 00** (Stéphane Rosset, Partner Manager) or via email at **sales@move.ch**.

We look forward to hearing from you.
